

ADDENDUM NUMBER 1

Riverside Park Pedestrian Bridge
1500 East Riverside Place
Milwaukee, WI

Project Number: P153-08636

Date of Addendum: December 14, 2011

This Addendum to the Contract Documents is issued to modify, explain or correct the original documents, dated September 1, 2011, and is hereby made part of the Contract Documents. Acknowledge receipt of this Addendum in the space provided on the Bid Form, or bid may be rejected.

CONSTRUCTION DRAWINGS

1. Site Access Plan: Clarification for access routes. There are two Secondary Access routes. The Secondary Access routes come from the north/northeast and are designated by two different dashed lines. Both the Secondary Access routes require permission and prior approval before using either route. All requests for permission to use the Secondary Access routes shall be coordinated with the County's Construction Coordinator. Requests shall be made 2 days in advance to allow further coordination with Milwaukee Public Schools.
2. Sheet B-1, General Plan and Elevation: The temporary protection for trail users shall provide a minimum of 2' horizontal clearance from the edge of the trail and a minimum 10' vertical clearance above the trail. The existing trail is 10' wide.
3. Sheet N-1, Notes, Typical Sections & Utilities: Clarification for note addressing maintaining public access along the Oak Leaf Trail at all times. Short-term closures are permissible. No closures can delay trail users more than 10 minutes at any time. The trail may remain closed if no trail users are present. For consideration of longer-term trail closures, contractor may provide a properly noticed and signed alternative route for trail users. The use of an alternative route is subject to approval by the County. The alternative route alignment, proper notification, duration of closure and signage shall also be approved by the County.
